D.D.STEP

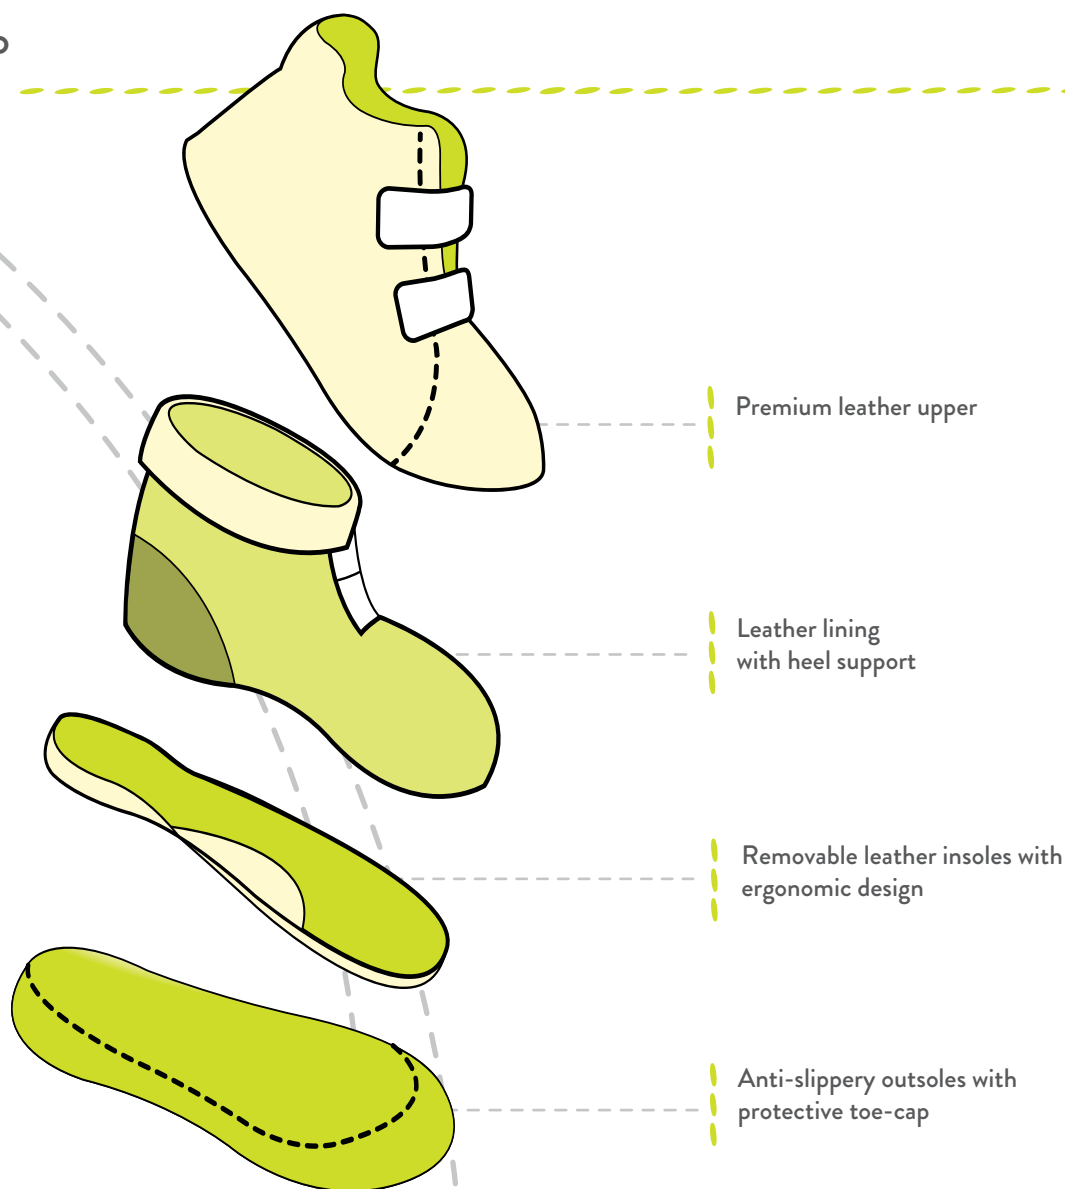

Size measuring

Over their lifetime, the child's feet will take them four times round the world; growing, changing and developing every day from birth until child reaches their late teens. We understand the importance of our tasks and responsibility. Thus, we always bear in our mind "GO NATURAL GO BAREFOOT". We make shoes that follows foot's natural curve and movement.

D.D.STEP

Our Shoes

D.D.STEP

Our Brand

D.D.STEP is a high-quality children brand founded by a 3rd generation shoemaker family, started from men shoes, ladies shoes to kids shoes. It was a combination of invention and craftsmanship that's remained at the heart of what we do. And whilst now, every pair of our shoes begins with a last carved by hand and advanced construction techniques help us deliver perfection walking experience for the future master of our world.

"FASCINATED BY SHOES"

Each step of a child is our responsibility. Each decision, each shoe we made today decide how the world will be like and how the kids will be grow. With our iconic 3D STITCH construction which use 70% less chemicals in production for better world and better health, while without compromising in comfortability and quality, we created the brand D.D.STEP.

Our shoes are entirely developed and designed at our own facility. Our expert team of designers and technicians use their creativity and knowhow to create the best D.D.STEP shoes.

ICONS

FLEXIBILITY

Super flexible, and comfortable. Providing a good grip, and protecting the feet by the reinforced toe cap and heel part. Guarantee the maximum freedom for the feet while wearing.

SHOCK ABSORPTION

The shock absorbing comfort insoles reduces stress on children feet at impact with the application of shock absorbing cushions.

AQUA-TEX

Thanks to the special waterproof membrane these shoes are waterproof yet allows the wearer's skin to breathe. It lets water vapour from sweat pass to the outside, but it stops rain drops from passing to the inside.

REMOVABLE INSOLE

The insoles are removable, so they can be cleaned and dried to ensure the cleanliness and hygiene of the footwear on the inside. The removable insoles are made of leather to ensure natural contact with the foot and enhances the comfort.

ANTI-SLIPPERY OUTSOLE

Rubber outsole with toe protection cap. The shape and composition of the outsole make it all in function of grip and flexibility, protection and comfort. Lightweight, durable and non-slip rubber outsoles.

WARM LINING

The footwear lined with warm lining, keeping the foot warm in winter.

ZIPPER

Thanks to the zipper you can easily take your shoes on and off.

THERMO LINING

The footwear lined with a special thermo lining, providing extra protection for extreme winter conditions.

3D STITCHING TECHNOLOGY

New stitching technology for the ultimate in comfort and flexibility. The 3D stitching of the upper to the outsole reduces the use of glue and chemicals. More durable and flexible with less chemicals.

ERGONOMIC LEATHER INSOLE

The ergonomic insole lined in soft leather to ensure natural contact with the foot.

GENUINE LEATHER UPPER AND LINING

The upper parts of the shoes are made from carefully selected, high quality, full grain leather and lined with soft leather to ensure natural contact with the foot.

WATER REPELLENCE

The footwear is treated with a special water-repellent coating, thus creating a "LOTUS" effect on the shoe surface to keep the shoes clean.

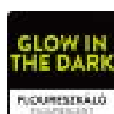

GENUINE LEATHER UPPER

The upper parts of the shoes are made from carefully selected, high quality full grain leather.

LED LIGHTS

Equipped with built-in LED and blink with every steps!

GLOW IN THE DARK

Stands out whether the lights are on or off.

LIGHTWEIGHT

A new generation of lightweight outsole, durable, flexible, and lightweight. Equipped with anti-bacterial insole.

REFLECTIVE

Materials help the eye perceive objects in low-light conditions when illuminated by a light source, enhancing the contrast of the shoe wearer for drivers and bikers.

BAREFOOT

Barefoot shoes are wide and unrestricting to let kids feet grow strong natural bones and tendons, especially the Big Toe, crucial for balance and skilful movement. The shoes are very flexible, allowing the tendons and muscles in kids feet to splay and recoil.

Rain & Stain Pro- tector

NANO Technology
Help waterproof and protect
everything from shoes, coats and

Shoe Refresher

NANO Technology
Keeps footwear odour free
Formulated to prevent and kill odour
Natural Water-Based Spray
Anti-Bacterial
Mild to skin
